

DIARY NOTES

DD/S *W*

25 June 1965

1. At the Executive Committee Meeting this morning:

a. Mr. Kirkpatrick announced that he was remanding the recent Automatic Data Processing Committee report back to the Committee since they had not answered the questions which had been put to them.

b. Mr. Kirkpatrick announced that he has undertaken development of the long-range plan at the Director's request and that he will take up residence in the East Building on 5 July.

2. Sherman Kent raised with me the question of [REDACTED] consultant contract which [REDACTED] had declined to sign because of the clause prohibiting writing, speechmaking, etc., without CIA's permission. I met with [REDACTED] to discuss this problem. We agreed that we could amend the contract to make it palatable to [REDACTED]. However, he signed contracts in the past which contained this clause, so to ensure that he is not embarrassed in any way we asked him to send his manuscript to us for speedy review. Sherm sent him a new contract and wrote him a letter suggesting that he send us the manuscript immediately.

3. Larry Houston raised a legal question with me about the propriety of my approval of the total claim of [REDACTED]. I therefore requested that my 18 June memorandum be recalled so that I can consider this problem further from the legal point of view.

4. Emmett Echols was in to talk to me about the following items:

a. We discussed the White House summer employment program which would require us to send all our summer employees downtown for two days during the summer for lectures by senior Government officials. I think that we should be excepted from this requirement and asked Emmett to get in touch with appropriate personnel at the White House without delay so that I could present the matter to Dick Helms for a policy decision.

b. Emmett showed me a draft of a notice on employment of and contact with Peace Corps personnel which he had coordinated with DD/I,

SECRET

DD/P, and DD/S&T. I asked him to clean it up and return it to me quickly so that it can be published soon.

* * * * *

5. Dr. Tietjen called about the following:

a. He said that [REDACTED] had come to the Office of Medical Services of his own accord, which is a good sign. Since [REDACTED] is going on leave, John thought that he would transfer the case to Dr. [REDACTED]. It is, of course, still uncertain how serious the whole matter is, but the fact that Paul came in voluntarily is an encouraging sign.

b. Dr. Tietjen also confided in me that he is somewhat concerned about [REDACTED] who underwent another operation this afternoon. I too am greatly concerned and feel that the time is about here when we must make some arrangement to select [REDACTED] successor. I do not wish to do this, however, until it is definite that [REDACTED] either is not coming back to work or is well enough for me to discuss this with him quite frankly.
